

UC Denver HS Library: Education:Web Conferencing

Tools

Sometimes called Web Meeting or Online Meeting tools, allow people from around the block or around the globe to meet, share ideas, and get on the same page, all online. The idea is you simply login, upload content, and start a web conference. It is meant to be a fast, easy, affordable way to avoid travel expenses and make you more productive.

Free Web-based Services*

Product Name	Description	Max # of Attendees	URL	Key Features
DimDim	<p>Dimdim lets anyone deliver synchronized live presentations, whiteboards and web pages and share their voice and video over the Internet - with no download required.</p> <p>For a fee, Dimdim offers a 50 or 100 person meeting room, which can be purchased on a meeting-by-meeting basis or as an annual subscription. Dimdim offers Voice over Internet Protocol (VOIP), and allows presenters to share PDFs, PowerPoints, and their desktop. It also provides a whiteboard workspace.</p> <p>Dimdim does not allow a presenter to set up a meeting room in advance of the meeting, and it cannot integrate VOIP users with conference call users.</p>	20	http://www.dimdim.com/ 	<ul style="list-style-type: none"> • It's Easy, Open & Affordable • No Install to Host/Join meetings • Easy Share Screens & Webpages • Audio & Video Conferencing • Present PowerPoint and PDFs • Private & Public Chat • Whiteboard & Annotations • Record and Embed Meetings • Open Source and Open APIs
